

Cut-off wheels 125x1,6x22,2 for metal, per box of 25 pcs**

653.34332834

This STANDARD cut-off wheel for the angle grinder is an economical solution for the operator for several reasons. Thanks to its particularly high chemical purity, the disc is ideal for machining various grades of stainless steel, but of course it can also be used on steel. In addition, it is comfortable to handle and offers a good standing time as well as easy cutting ability.
