

Hambi mesh bender MBH 501 V

520.20245

Features:

- Bending by means of 34 centrally controlled bending cams with a diameter of 30mm;
- Reinforced construction and bending cams;
- Hydraulic drive system;
- 2 bending speeds;
- Easy and quick adjustment of the bending cam positions;
- Setting up 3 bending angles up to 180°;
- Equipped with anti-rotation feature and central locking;
- With bending roll rail, preventing damages to the welded wire mesh;
- Larger bending cams (45, 60 and 75mm) are available on request;
- Hydraulic high-performance pump with oil filling;
- Safety foot switch with emergency stop button.

Technical information:

- Bending capacity with 30mm bending cams: max. 60 x Ø12 mm, max. 30 x Ø14 mm;
- Working width: 5 meter;
- Voltage: 400V / 50Hz;
- Power: 7.5 kW;
- Weight: 1,550 kg.
