

## **Hambi mesh bender MBH 501 V**

520.20245

### **Features:**

- Bending by means of 34 centrally controlled bending cams with a diameter of 30mm.
- Reinforced construction and bending cams.
- Hydraulic drive system.
- 2 bending speeds.
- Easy and quick adjustment of the bending cam positions.
- Setting up 3 bending angles up to 180°.
- Equipped with anti-rotation feature and central locking.
- With bending roll rail, preventing damages to the welded wire mesh.
- Larger bending cams (45, 60 and 75mm) are available on request.
- Hydraulic high-performance pump with oil filling.
- Safety foot switch with emergency stop button.

### **Technical information:**

- Bending capacity with 30mm bending cams: max. 60 x Ø12 mm, max. 30 x Ø14 mm
- Working width: 5 meter
- Voltage: 400V / 50Hz
- Power: 7,5 kW
- Weight: 1.550 kg
