

Bending machine MSB38-E, 3x 400V-50Hz

510.10330

Features:
· Electrically driven bending machine for rebar.
· Simple and robust design with two adjustable guides.
· The bending plate can rotate both left and right.
· Angle adjustment by means of stop pins (1 bending angle per direction of rotation).
Bending tools included:
· 6 bending rollers (Ø50-60-70-80-95-120mm)
· 3 bending pins
· 1 stirrup bending tool

· 1 small diameter bending pin
· 1 foot pedal
Technical information:
· RPM: 9
· Motor capacity: 3 KW at 3φ 400V/50Hz
· Max. bending capacity at R=650 N/mm²: 1×Ø34, 2×Ø26, 3×Ø20mm
· Max. bending capacity at R=850 N/mm²: 1×Ø32, 2×Ø24, 3×Ø18mm
· L×W×H: 86×90×85cm
· Weight: 365 kg
