

Bending machine MSB74-E, 3x400V-50Hz, 2-speed, with controller

510.10373

Features:
· Electrically driven bending machine for rebar.
· Simple and robust design with two adjustable guides.
· The bending plate can rotate both left and right.
· Two bending speeds allow for higher speed when bending thinner diameters.
· Angle adjustment by means of programmable display. Bending shapes consisting of several different bending angles, both positive and negative (up to 20 pieces) in one cycle.
· In addition, a counter is provided to count the number of bends.

Bending tools included:
· 7 bending rollers (Ø80-95-110-150-200-240-300mm)
· 3 bending pins
· 1 stirrup bending tool
· 1 small diameter bending pin
· 1 foot pedal
Technical information:
· RPM: 5
· Motor capacity: 7.5 KW at 3φ 400V/50Hz
· Max. bending capacity at R=650 N/mm²: 1×Ø60, 2×Ø42, 3×Ø34mm
· Max. bending capacity at R=850 N/mm²: 1×Ø50, 2×Ø36, 3×Ø30mm
· L×W×H: 160×116×96cm
· Weight: 1600 kg
Control panel:
