

Bending machine MSB74-E, 3x400V-50Hz, 2-speed

510.10370

Features:

- · Electrically driven bending machine for rebar.
- · Simple and robust design with two adjustable guides.
- · The bending plate can rotate both left and right.
- · Angle adjustment by means of stop pins (1 bending angle per direction of rotation). Bending tools included:
- · 7 bending rollers (Ø80-95-110-150-200-240-300mm)
- · 3 bending pins
- · 1 stirrup bending tool
- · 1 small diameter bending pin
- · 1 foot pedal

Technical information:

- · RPM: 5
- · Motor capacity: 7.5 KW at 3φ 400V/50Hz
- · Max. bending capacity at R=650 N/mm²: $1\times\emptyset60$, $2\times\emptyset42$, $3\times\emptyset34$ mm
- · Max. bending capacity at R=850 N/mm²: $1\times\emptyset$ 50, $2\times\emptyset$ 36, $3\times\emptyset$ 30mm

· L×W×H: 160×116×96cm

· Weight: 1600 kg
