

Horizontal radius bending machine, MSR35-H, 400V/50Hz

510.10195

Technical information:

- Rotation speed: 15/min low speed, 30/min high speed
- Min. diameter: 1x Ø10mm
- Max. diameter: 1x Ø25mm
- Power: 4.5kW
- Dimensions (cm): 245x95x h.125
- Weight: 430 kg

Round 12-16 can be processed from both coil and bar, other diameters only from bar.
Price excluding material supply (such as unwinding reel). Including +/- 2 meters of tube over which spiral is winded.
