

Mesh cutter 1000mm with replaceable blades

This Mesh cutter is equipped with interchangeable blades. this means that not the entire blade head needs to be replaced, but only the blades. Also, these are triangle-shaped blades, this has the advantage that they can be rotated and will therefore be able to be used multiple times.

Mesh cutter 1000mm with replaceable blades // blade type 4; maximum Ø10mm

Blade type 4 (each) for mesh cutter and Bolt Cutter
